

- ◆ SUS304 stainless steels structure.
- ◆ Multiple bottom choices: SUS304, SUS316, Duplex, Composite.
- ◆ High quality temperature sensor, safe and dependable.
- ◆ Intelligent fire algorithm to adjust power output in real time.
- ◆ High-quality, customized heating components provide powerful, even heating.
- ◆ Efficient and intelligent algorithms to adjust power output in real time.
- ◆ Seamless bottom with high-quality Teflon coating provides superior non-stick performance.

Technical Description

Technical Data

Model	Dimensions	Power	Voltage
JG80BU	1150 × 980 × 1370 mm	12kW	380V / 3P+N+E / 50Hz
