Description

Bonvue Chilled Food Display SL840V - Chilled Square Stainless Steel Food Display

This deluxe display presents your culinary artistry, snacks, and meals for the entire world to see as soon as they enter your establishment. Built by Bonvue, one of the leading brands in vibrant, multipurpose kitchen equipment and display units, the SL840V is a promising piece to add to a bakery, cafe, or health food store.

This display is fantastic for showcasing lighter meals and snacks like cakes, wraps, and sandwiches, and gives you the opportunity to entice potential customers. It also preserves those snacks and meals with a chilled interior.

The SL840V is not the biggest unit in Bonvue's collection of powerful display cases, but it can easily fit into most businesses. It features interior lighting, a triple-glazed front with wire filaments, four display levels, high humidity, fans, and compressors.
