KEY FEATURES

Reliable Cooling Performance

Fan-forced evaporator cooling ensures consistent temperatures and rapid recovery in demanding kitchens.

Adaptable Configurations

Available in solid door, glass door, or drawers, with optional depths (600mm and 700mm) to suit every workspace.

High-Performance Stainless Steel Cabinet

60mm thick polyurethane foam to ensure stable temperature performance even in high ambient conditions.

Energy Efficient Design

R290 refrigerant lowers energy use and environmental impact, paired with high-density, HFCs and CFCs free insulation for maximum cooling efficiency and minimal energy loss.

DETAILS

The Fed-X XUB 600 & 700 Series undercounter fridges and freezers combine form, function, and reliability for professional kitchens. Built from high-grade stainless steel, each model delivers robust cooling and easy maintenance in a compact footprint. These units are engineered to fit seamlessly beneath prep benches or serve as standalone worktops, making them a versatile solution for cafés, restaurants, and catering operations.

Available in solid door or glass door configurations with optional 600mm or 700mm depths, the XUB Series provides flexible choices for any workspace. Each unit features fan-forced evaporator cooling for even air distribution, digital temperature controls for accuracy, and heavy-duty castors for effortless mobility. LED-lit glass door models provide full product visibility, while solid door variants maximise energy efficiency and cold retention.
