FED-X Compact Workbench Fridge XGNS450B

Quick Overview

- Gross Volume: 109L
- Net Volume: 90L
- Max Ambient Temperature: 38°C, 60%RH
- Temperature Range: +2 to +8 ° C
- Stainless steel interior and exterior with rounded corners for easy cleaning
- Replaceable magnetic door seals
- User-friendly Digital controls
- Heavy-duty castors with front-wheel brakes
- Fan-assisted cooling

Â

Description

FED-X Compact Workbench Fridge XGNS450B

Fan-assisted static cooling refrigerators offer a hybrid cooling approach, combining even air circulation via a fan with the humidity benefits of static cooling. This method ensures a more uniform temperature, quicker recovery after opening, and reduced, though normal, frost buildup on panels. While slightly noisier than purely static models, they maintain optimal humidity for fresh produce and are more energy-efficient than full frost-free units. This system strikes a balance between minimising frost accumulation and preserving food quality, making it a cost-effective solution for those seeking the combined advantages of improved air distribution and natural humidity levels in their refrigeration.

Key features

- Gross Volume: 109L
- Net Volume: 90L
- Max Ambient Temperature: 38 °C, 60%RH
- Temperature Range: +2 to +8 ° C
- Stainless steel interior and exterior with rounded corners for easy cleaning
- Replaceable magnetic door seals
- User-friendly Digital controls
- Heavy-duty castors with front-wheel brakes
- Fan-assisted cooling
