DENOMINATION:

Countertop gas cookers GN. 6 burners, high power. 900 range.

DESCRIPTION :

- Stamped surface tops, manufactured in 2 mm thick AISI-304 stainless steel.
- Laser-cut joints, automatic welding and polishes. Screws hidden from view.
- Hobs with dimensions 397 x 350 mm allowing the use of large pans and pots. The shortened distance between the central prongs, 75 mm, allows them to support pans with a very small diameter (8 cm). This also avoids the danger of small containers tipping over.
- The hobs are manufactured in RAAF enamelled cast iron (resistant to acid and alkali products, and to fire and high temperatures).
- Double crown burners and diffusers in nickel-plated cast iron, guaranteeing the even distribution of heat from the flame in the bottom of the pans, even large ones. This avoids the accumulation of heat at a single point and optimises the energy transfer of the product.
- Burners slot back in with no way of confusing their position.
- Low consumption pilots and thermocouples positioned within the body of the burner for greater protection.
- Gas conduction in flexible stainless steel tubes, making internal manipulation easier and facilitating any repair work.
- Controls set on a protective base with a system against water infiltration.
- High temperature enamelled cast iron flue protector aligned with the hobs, facilitating manoeuvrability and supporting larger containers, increasing useful surface area.
- Access to the components from the front.
- Machines with IPX5 grade water protection"

POSSIBLE ACCESSORIES :

- STANDS 900
- REFRIGERATED STANDS
- ACCESSORIES KORE
- COOKER ACCESSORIES KORE
- KORE WHEELS
- TALL CHIMNEY KORE
