Fagor Electric Condensing Hood for 061 and 101 IKORE Oven EXH-061-101

Quick Overview

- Extraction hood with a simple installation of single-phase connection, capable of retrofitting.
- A solid structure, with an accessible and removable front, as well as removable filters for easy maintenance and cleaning.
- It retains the steam resulting from cooking and sucks in the steam generated when the door is opened, with a suction power that is adjusted to each situation.
- The steam is automatically extracted from the cooking cabinet.
