Induction hob Instruction manual

**Model:
GF239-A**

Safety Instructions

- Position on a flat, stable surface.
- A service agent/qualified technician should carry out installation and any repairs if required. Do not remove any components on this product.
- Consult Local and National Standards to comply with the following:
 - Health and Safety at Work Legislation
 - Fire Precautions
 - Wiring Regulations
 - Building Regulations
- **Caution! Hot surface!** 
- DO NOT immerse the appliance in water.
- DO NOT leave the appliance unattended during operation.
- DO NOT move the appliance during cooking or with hot cookware on top of it.
- DO NOT place empty cookware on the appliance.
- DO NOT place any magnetic objects on the glass surface during operation.
- DO NOT place metal objects/utensils on the appliance as they may become hot during operation.
- People with a pacemaker fitted should not use the appliance and keep a minimum of 60cm from the appliance during operation.
- Always switch off and disconnect the power supply to the appliance when not in use.
- Not suitable for outdoor use.
- If the glass surface is cracked disconnect from the power supply and consult your Apuro agent or recommended qualified technician.

- Keep all packaging away from children. Dispose of the packaging in accordance to the regulations of local authorities.
- If the power cord is damaged, it must be replaced by an Apuro agent or a recommended qualified technician in order to avoid a hazard.
- This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience or knowledge, unless they have been given supervision or instruction concerning the use of the appliance by a person responsible for their safety.
- Children should be supervised to ensure that they do not play with the appliance.
- Apuro recommend that this appliance should be periodically tested (at least annually) by a Competent Person. Testing should include, but not be limited to: Visual Inspection, Polarity Test, Earth Continuity, Insulation Continuity and Functional Testing.
- Connect the appliance to a circuit protected by an appropriate RCD (Residual Current Device).
- Under no circumstances put a plug on the cable.
- ((⦿)) non-ionizing electromagnetic radiation.

Introduction

Please take a few moments to carefully read through this manual. Correct maintenance and operation of this machine will provide the best possible performance from your Apuro product.

Pack Contents

The following is included:

- Apuro induction hob
- Instruction manual

Apuro prides itself on quality and service, ensuring that at the time of unpacking the contents are supplied fully functional and free of damage.

Should you find any damage as a result of transit, please contact your Apuro dealer immediately.

Installation

Maintain a distance of 15cm (6 inches) between the appliance and walls or other objects. Installation must be carried out by a qualified technician.

Induction Cooking

Induction cooking is a very efficient method of cooking as it reduces heat loss between the pan and the atmosphere by as much as 40%. This makes it extremely energy efficient, as well as offering immediate heat-up, unlike traditional heating methods which require time to get to temperature.

The Induction cooker works by creating a magnetic field within suitable cookware, which causes an instant build-up of heat to cook the food.

Induction hobs can make a variety of noises for different reasons. Crackling and whistling noises are often due to the construction of the pan or any utensil in it. Quiet humming noises are due to the induction technology and are completely normal. The cooling fans for the electronics may also be heard.

Cookware

Suitable cookware includes:

- All magnetic pans such as Vogue Stainless Steel or Triwall pans.
- Mild steel or plain steel (black iron) pans
- Enamelled/non-enamelled cast iron and iron pans
- Cookware diameter: 14cm - 28cm

Unsuitable cookware includes:

- Cookware with a diameter less than 14cm
- Ceramic or glass cookware
- Stainless steel with no/weak magnetism, aluminium, bronze or copper cookware unless marked as suitable for induction cooking
- Cookware with feet
- Cookware with a rounded bottom (e.g. wok)

Operation

1. Connect the appliance to the mains power supply.
2. Place suitable cookware on to the centre of the glass plate.

Note: Never place empty cookware on the appliance.

3. Turn the dial to the desired power as indicated on the display.
4. If the pan is removed or the wrong type of pan is used, the appliance will make a beeping noise and switch off after approximately 60 seconds.

Cleaning, Care & Maintenance

Isolate the power supply and allow the appliance to cool before cleaning.

- Use warm, soapy water and a damp cloth to clean the appliance.
- DO NOT use abrasive cleaners or pads.
- Dry thoroughly after cleaning.
- There are 2 removable air filters on the bottom of the appliance. Pull them out and clean with a vacuum cleaner. Put back afterwards.

Troubleshooting

A qualified technician must carry out repairs if required.

Error Message	Probable Cause	Solution
The unit is not working	The unit is not switched on	Check the unit is hardwired correctly and switched on
	Lead is damaged	Replace lead
	Mains power supply fault	Check mains power supply
Unit Beeps	No pan or pan not suitable for induction cooking	Use pan suitable for induction cooking such as Vogue Stainless Steel Range
E01	Unit has overheated	Ensure ventilation filter (located underneath unit) is clean and unblocked. Allow unit to cool. If error code still appears after unit has cooled contact an Apuro agent or qualified engineer.
E02	Pan being heated is empty, temperature of pan is too high	Remove pan from unit. Allow unit to cool. Ensure pan contains product to be heated. If error code still appears after unit has cooled contact an Apuro agent or qualified engineer
E03	Power input has risen/fallen below units operating limits	Switch off unit. Allow unit to cool. If error code still appears after unit has cooled contact an Apuro agent or qualified engineer

Technical Specifications

Note: Due to our continuous improvement process, the product specifications are subject to change without notice.

Model	Voltage	Power (Max.)	Power range (Per ring)	Dimensions h x w x d mm	Weight
GF239-A	220-240V~ 50Hz	7000W	500 - 3500W	130 x 390 x 720	14kg

Electrical Wiring

Always switch off and disconnect the power supply to the appliance before installation, when not in use, before cleaning and maintenance/service. This appliance should only be connected to the mains electricity supply by a qualified electrician. Hardwire the appliance into a suitable power supply with correct voltage and sufficient power capacity. Refer to the rating label on the appliance for voltage and wattage requirements.

This appliance is wired as follows:

- Live wire (coloured brown) to terminal marked L
- Neutral wire (coloured blue) to terminal marked N
- Earth wire (coloured green/yellow) to terminal marked E

This appliance must be earthed.

If in doubt consult a qualified electrician.

Electrical isolation points must be kept clear of any obstructions. In the event of any emergency disconnection being required they must be readily accessible.

Compliance

The product must not be disposed of as household waste. To help prevent possible harm to human health and/or the environment, the product must be disposed of in an approved and environmentally safe recycling process. For further information on how to dispose of this product correctly, contact the product supplier, or the local authority responsible for waste disposal in your area.

Apuro parts have undergone strict product testing in order to comply with regulatory standards and specifications set by international, independent, and federal authorities.

Apuro products have been approved to carry the following symbol:

I, the undersigned, hereby declare that the equipment specified above conforms to the above Territory Legislation, Directive(s) and Standard(s).

Ik, de ondergetekende, verklaar hierbij dat de hierboven gespecificeerde uitrusting goedgekeurd is volgens de bovenstaande Richtlijn(en) en Standaard(en).

Je soussigné, confirme la conformité de l'équipement cité dans la présente à la / aux Directive(s) et Norme(s) ci-dessus
Ich, der/die Unterzeichnende, erkläre hiermit, dass das oben angegebene Gerät der/den oben angeführten Richtlinie(n) und Norm(en) entspricht.

Il sottoscritto dichiara che l'apparecchiatura di sopra specificata è conforme alle Direttive e agli Standard sopra riportati.

El abajo firmante declara por la presente que el equipo arriba especificado está en conformidad con la(s) directiva(s) y estándar(es) arriba mencionadas.

Eu, o abaixo-assinado, declaro que o equipamento anteriormente especificado está em conformidade com a(s) anterior(es) Directiva(s) e Norma(s)
