Simple Operation. Professional Performance. Simple Operation. Professional Performance.

Heat-Resistant Bakelite Handle

Safe, cool-touch operation.

Non-Drip Tap Assembly

Clean, accurate dispensing.

Concealed Heating Element

Easy-clean design with improved hygiene.

Rotary Temperature Dial

Intuitive control from 30-100°C.

The Benchstar Hot Water Urn Series delivers reliable, consistent hot water production in a durable mirror-finish stainless steel body. Designed for fast heat-up and simple operation, the concealed heating element ensures better hygiene and easier cleaning, while the intuitive rotary dial allows precise temperature control from 30-100°C.

A built-in safety limiter protects the unit during boiling cycles, and the non-drip tap ensures clean dispensing throughout service. Lightweight, robust, and easy to maintain, these urns are built to handle continuous daily use.

Fast, Clean, Consistent Hot Water Delivery.

Ideal for offices, staff rooms, community halls, event venues, commercial catering, and busy hospitality operations, the Benchstar urn range provides dependable hot water wherever high-volume service is required. Their simple controls and efficient heating make them perfect for tea and coffee stations, buffets, mobile catering setups, aged-care facilities, and conference environments, offering a safe and reliable source of boiling water throughout the day.
