CONVOTHERM®

THE KING OF COMPACT

mini pro combi oven

MOFFAT®

A breakthrough in compact cooking

mini pro the King of Compact for more speed and output in less space

The mini pro is designed to meet today's biggest challenges – smaller spaces, shortage of trained staff and high energy and water costs.

A fully fledged combi oven, versatile and efficient, it delivers high volumes in limited time, space and effort to produce high quality food-to-go that stays fresher longer.

Designed for front-of-house and effortless operation, even with minimal training, operators of all skill levels will be able to consistently produce food of exceptional quality.

At a glance

- Only 49.8 cm/19.6" wide
- ConvoSense – AI-driven optical cooking
- ConvoClean S2L Solid-to-Liquid cleaning system
- 80 % more airflow
- Seamless stacking
- Optimised for lower energy and water consumption
- Ventless operation possible

88%*

* CO₂-CALCULATOR (carboncare.org)

ConvoClean S2L Solid-to-Liquid cartridges are revolutionising cleaning in the compact combi oven category. These contactless cartridges are integrated into the oven, saving valuable storage space and offering greater convenience and safety.

They also promote a more sustainable operation. With auto-dosage technology, only the precise amount of chemicals is used. This ensures lower consumption and reduces waste. Additionally, reduced packaging, shipping costs, and storage decreases carbon footprint by approximately 88%.

The Integrated Water Quality Manager automatically monitors and optimises cleaning and descaling programs to safeguard components, minimise downtime and extend oven lifespan.

ConvoClean automatic cleaning

- 100 % recyclable, phosphate free and biodegradable
- 3 cleaning levels: regular, eco and plus care
- Cleaning cycle ≈ 19 litres water
- Integrated hand shower
- Cleaning Scheduler for programmed automatic cleaning
- Certified for unattended cleaning

AI-driven optical cooking for the ultimate in ease of use and consistency

ConvoSense

For the first time, AI-driven optical cooking is now available in the compact combi oven category. Convotherm's world-leading technology, ConvoSense, automatically detects food and selects the right cooking profile. Simply load the tray and go! No manual input means minimal training, freeing up staff time to focus on serving customers.

Production Manager: The next level of interaction

Real-time data is captured and analysed, using KitchenConnect®, Convotherm's open cloud-based data management system. This provides learning and actions for production planning and service diagnostics, as well as menu push direct to up to 1,000 ovens.

Take your business to the next level with ConvoSense*

- 28 % reduction in energy consumption
- 18 % shorter baking times
- 17 % less food waste

* Compared to professional convection ovens

With ConvoSense, optical sensors recognise products and start the right cooking profile automatically

Automatic cooking, Press&Go, allows operators to easily select recipes and favourites

Where space is limited. Minimum footprint. Maximum output and quality.

The world's smallest full GN combi oven

The mini pro packs all the power and versatility of combi cooking into a space barely wider than a high-speed oven.

mini pros can be installed flush mount. The ovens can be placed directly to the wall, or can be easily integrated into standard kitchen units.

EasyStack seamless stacking saves both space and money. The 2in1 Control allow simultaneous operation of both ovens, using either control panel, for the ultimate in ease of use.

Space-saving

- Only 49.8 cm or 19.6" wide
- ConvoClean S2L integrated cartridges take up zero space when in use and 80 % less storage space
- Flush mount installation
- Integrated hand shower for convenient, clutter-free access
- Ventless operation possible

Fresh delicious food every time

The mini pro delivers unmatched versatility with the widest range of cooking modes, from frying to sous vide, making it a valuable replacement for multiple pieces of kitchen equipment.

The magic combination of convection heat and steam ensures food stays moist and fresh for longer. With Intelligent Steam Management, it optimises moisture levels to create exceptional menus while reducing water and energy consumption, and food waste.

AirFlowPro
up to

80%

more air flow

- Rapid responsiveness – from 0 °C to 150 °C in just 2 1/2 minutes
- Double production using EasyStack seamless stacking
- EasyRack for fast easy loading and one additional rack level
- More uniform cooking thanks to AirFlowPro

Through cutting-edge technology and EasyRack, the mini pro enables significantly higher output with the same energy consumption. The Climate Management System has been optimised with AirFlowPro and Intelligent Steam Management to deliver perfect cooking results with 25 % more capacity.

AirFlowPro delivers 80 % more air flow, while remaining gentle on delicate foods. This is achieved without any additional energy consumption, thanks to a new brushless motor and air blade system.

MaxiCavity optimises cavity volume efficiency, enabling greater production within the same space. The additional shelf increases output by 25 %.

Enjoy faster and easier loading thanks to the innovative EasyRack shelf system, the first to accommodate both GN and US-sized trays.

Construction

EasyStack – seamless stacking	●
EasyRack shelf system for both GN and US sheet pans	●
MaxiCavity – optimised cavity volume to oven size	●
Flush Mount	●
Hygienic footless base	●
2in1 Control	●
Only 1 water supply required (4°dH–20°dH)	●
LED lighting	●
Triple glazed oven door right hand hinged	●
Integrated hand shower	●
Door handle with slam function	●
Safety door lock with lift position 2-stages	●
Multipoint core temperature sensor fixed to the unit	●
Ethernet (LAN)	●
Wifi ready*	●
USB A and C port integrated on panel	●
Various voltages available	●

Cooking types

Steam (30–120 °C) with guaranteed steam saturation	●
Combined steam (30–250 °C) with automatic humidity adjustment	●
Convection (30–250 °C) with optimised heat transfer	●

Operation

7" TFT HiRes-glass-touchdisplay	●
Smooth and responsive display with scroll function	●

Climate Management

HumidityPro – humidification in 5 levels	●
Crisp&Tasty – dehumidification in 5 levels	●
Manual steam injection on demand	●
AirFlowPro – improved air flow management with new fan and motor, also in reverse mode	●
Intelligent Steam Management	●

Quality Management

BakePro – baking function in 5 levels	●
AirFry mode	●
Automatic preheat and cool down function	●

Production Management

Automatic cooking with Press&Go with up to 399 profiles	●
Manager mode and crew mode	●
Integrated cookbook with 7 categories	●
TrayTimer – management of different products at the same time	●
TrayView – management for the automatic cooking of different products with Press&Go	●
Favourites management	●
AutoStart	●
Message Step	●
ecoCooking	●
Delta T	●
Low temperature cooking	●
Regenerate – flexible regeneration function with preselection	●
HACCP data storage	●

Cleaning Management

Advanced recirculatory cleaning	●
ConvoClean S2L Solid-to-Liquid cleaning system.	●
Fully automatic cleaning with integrated cartridge system	●
3 intensity levels chosable between regular or eco cleaning	●
DryingStep	●
Express cleaning	●
QuickRinse	●
Precise detergent dosing for maximum efficiency	●
Optional Safe Cool Down function before cleaning (with door closed)	●
Cleaning favourites & individual saving	●
Cleaning Scheduler	●

HygieniCare Solutions

Hygienic points of contact to reduce the multiplication of microorganisms (door handle & hand shower)	●
---	---

Service

Emergency program	●
Visual service diagnosis system	●
5 service hatches	●

Options

ConvoSense AI-driven optical cooking	●
SmartDoor with AutoLock, AutoVent, AutoOpen	●
Exterior design in matte black	●
Unit with left-hand hinged door	●

* WiFi module and cellular module available as accessories

Convotherm Service – always at hand.

It's well known that the best service is the one that is never needed in the first place. That's why we have designed the Convotherm mini pro for the greatest possible reliability and manufacture it with the highest quality requirements. However, if the need arises, your Convotherm service partners are always there for you.

Competent service: Any time, any place

Even in the event of a technical fault, the Convotherm mini pro still offers you a special emergency program for high functional reliability. The Moffat Service Department provides full service backup, 24 hours a day, 7 days a week. There is a team of trained service personnel at every Moffat branch and authorised service providers offer further support to outlying areas. Additionally, a free-phone number allows clients to have immediate access to the entire service network.

Commitment to customers: Training seminars

Our network of dealer showrooms also has a wealth of information on the Convotherm range. To see the technology in action book in for a demonstration at a Moffat test kitchen near you.

Introductory sessions can be booked online.

Well thought through: Service-friendly design

The Convotherm mini pro design focuses on maximised ease of servicing. Networked appliances not only send error messages, but also even enable online diagnostics. Two service ports provide easy access to the inner workings of the appliance. The number of components and the tools required have been kept as small as possible. In addition, the design of important components in line with Plug&Play and Poke Yoke philosophy helps to avoid errors during replacements.

Cost-optimisation across the board: Operation and service

The Convotherm mini pro is the ideal investment for everyone who would like to combine performance and economy. Many well thought through details help save water and electricity in daily operation. It all adds up – and it's not just good for the budget, but for the environment as well. All the measures employed to keep service work as easy as possible provide a noticeable reduction in costs.
