Description

TéVera Tea Brewer - CS-TB5S

The CS-TB5S Tea Brewer is designed to deliver consistent, repeatable tea quality in high-volume beverage environments. Automating the brewing, dispensing, and water-filling process, it removes variability from manual preparation and ensures every batch meets the same flavour and strength standards. Ideal for bubble tea stores, cafés, quick-service restaurants, and beverage chains, the CS-TB5S supports streamlined operations, faster staff onboarding, and centralised recipe control. Its compact footprint and smart system design make it well-suited for both single-store operators and multi-site rollouts.
