The Guide

to a professional dishwashing room

A solution for every application

Wexiödisk offer a complete product range that includes everything from undercounter and passthrough machines to custom-made dishwashers for larger premises. When we propose a dishwasher to a client, we consider the entire process – like the logistics in the washroom, the type of dishware and glassware used, as well as any other needs of the customer.

Our unique products and features make us stand out from the crowd. We never compromise on quality, ergonomics, nor the environment - a solution from Wexiödisk is always a sustainable alternative.

Our products can be found in many commercial bars, restaurants, hotels, hospital kitchens and the like. We have solutions for every application and customer sector!

EVERYTHING WE DO PLAYS ITS' PART IN A MORE SUSTAINABLE FUTURE.

Since 1972 our philosophy has been to focus on quality and sustainability from an environmental perspective.

Wexiödisk develops high quality products and selects each component with care in an effort to extend each product's lifecycle and save on the Earth's resources.

1. **ECO-FLOW is all about saving energy.** Wexiödisk's dishwashers are designed to reduce energy consumption through a smart heat recovery system. With ECO-FLOW, you can be sure that you have a dishwasher that is both energy efficient and effective.
2. **DUPLUS is all about saving water.** By integrating innovative Duplus technology into our dishwashers, water consumption is reduced to as little as 1litre / basket.
3. **PRM is all about saving time and water** by recycling the dishwasher's wastewater and using it in a controlled pre-rinsing system big savings can be made in water, energy and labour costs.
4. **ERGONOMICS is all about creating a safe working environment** for staff, reducing the risk of manual handling injuries, thus creating a safer and healthier work environment.

Together, these four characteristics form the perfect combination to create an efficient, sustainable and environmentally friendly washing station.

The **ECO** labelling gives customers the opportunity to make a conscious choice when they invest in a dishwasher that's both sustainable and efficient.

Single tank dishwashers

WD-4S

A fast wash with high capacity. Perfect for the smaller kitchen or bar.

- Robust and safe, giving perfect dishwashing results
- Clear and self-explanatory tempered glass touch-screen display
- Hygienic, space saving door design
- Save energy and drying time with ECO-FLOW (optional)

WD-6

The workhorse of the kitchen! Suitable for small and medium sized venues.

- Unique tilting hood design
- Easy to handle, ergonomic and service friendly
- Save energy and drying time with ECO-FLOW (optional)
- Auto-hood lift & Auto-Start removes the repetitive action of opening and closing the hood (optional)
- Over 50,000 machines of this model currently on the market

WD-7

Flexibility for small to medium sized restaurants.

- Easy change between Dishwashing and Potwash mode
- Unique tilting hood design
- Easy to handle, ergonomic and service-friendly
- Save energy and drying time with ECO-FLOW (optional)
- Auto-hood lift & Auto-Start removes the repetitive action of opening and closing the hood (optional)

WD-6/7 DUPLUS

Patented wash technology with minimal environmental impact!

- Double final rinse with patented DUPLUS technology
- Unique tilting hood design
- Use just 1-litre of fresh water per wash
- Save energy and drying time with ECO-FLOW (optional)
- Auto-hood lift & Auto-Start removes the repetitive action of opening and closing the hood (optional)

WD-PRM 6/7

Save time, water and energy with our PRM pre-rinse machine.

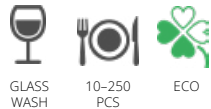

- Optimise dishwashing logistics
- Maximises water savings
- Reduces the use of detergents
- Highly ergonomic with many user benefits
- Auto-hood lift & Auto-Start removes the repetitive action of opening and closing the hood (optional)
- Replaces the need to have a person rinsing dishes at the sink

Glass dishwashers

WD-4S GLASS

Clean glassware with less polishing.

- Fine dining glass dishwasher with specially designed glass basket
- Robust and safe, giving perfect dishwashing results
- Clear and self-explanatory tempered glass touch-screen display, 3 glass programs
- Hygienic, space saving door design
- Save energy and drying time with ECO-FLOW (optional)

WD-6 GLASS

Less manual polishing of glassware.

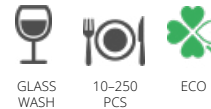

- Equipped with Glasstilt – minimises the water collecting in the base of the glass
- Hygienic – less fingerprints on the glasses
- Less risk of damaging the glass
- Save energy and drying time with ECO-FLOW (optional)
- Double water connections to connect a RO-unit

WD-7 GLASS

Less manual polishing of glassware.

- Equipped with Glasstilt – minimises the water collecting in the base of the glass
- Hygienic – less fingerprints on the glasses
- Less risk for damaging the glass
- Save energy and drying time with ECO-FLOW (optional)
- Double water connections, to connect a RO-unit

WD-6/7 DUPLUS GLASS

Less manual polishing of glassware.

- Equipped with Glasstilt – minimises the water collecting in the base of the glass
- Hygienic – less fingerprints on the glasses
- Double final rinse with patented DUPLUS technology
- Save energy and drying time with ECO-FLOW (optional)
- Double water connections to connect a RO-unit

Pot dishwashers

WD-8

Flexible and extra wide for bulkier goods.

- Automatic cleaning program
- Unique tilting hood design
- Extra large washing compartment
- Automatic hood (optional)
- Save energy and drying time with ECO-FLOW (optional)

WD-12S

Easy to switch between normal wash and potwashing.

- Large washing chamber for higher capacity and flexibility
- Easy change between Dishwashing and Potwash modes on either left or right
- Hygienic with rounded smooth surfaces when cleaning
- Can be paired with a WD-PRM7
- Auto-hood lift removes the repetitive action of opening the hood
- Save energy and drying time with ECO-FLOW (optional)

WD-90 DUO

Potwash or normal wash, with or without granules.

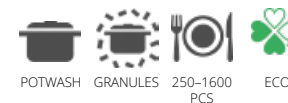

- DUO system makes it easy to switch between Dishwashing and Potwash modes
- A total of 9 wash programs to choose from with or without granules
- Shorter drying time with effective, energy-saving spin cycles
- Save energy and drying time with ECO-FLOW as standard

WD-90GR HC/FLEX

For large kitchens with multiple dishwashing needs.

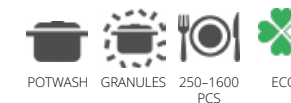

- No pre-washing by hand required
- A total of 6 wash programs to choose from with or without granules
- Dishes can be stacked directly on the hinged door
- Shorter drying time with effective, energy-saving spin cycles
- Steam reduction as standard
- Save energy and drying time with ECO-FLOW as standard

WD-100GR

A pot dishwasher machine with the largest capacity.

- Complete dishwashing system with loading table and trolley
- No pre-washing by hand required
- A total of 6 wash programs to choose from with or without granules
- Shorter drying time with effective, energy-saving spin cycles
- Save energy and drying time with ECO-FLOW as standard
- Many accessories that simplify the handling of goods

Rack conveyor dishwashers

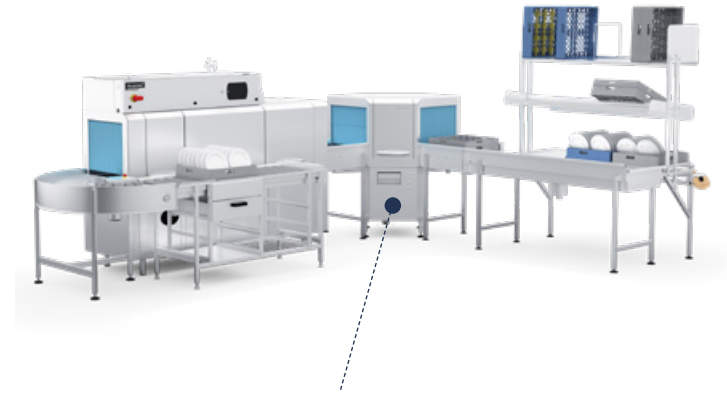

WD-151-421 TOUCH

A reliable and cost-effective rack conveyor dishwasher.

WD-153-423 OPTIFLOW

Brilliant clean, high capacity with the OPTIFLOW features.

WD-PRM 60/90

Reduce the total running cost by replacing manual pre-rinsing.
