BLIZZARD ICE SYSTEMS

FWIC-54C

Built-in Ice Machine

Scene application requirements

Output:54kg/24h **Color:**Stainless steel

Self-contained ice maker system Daily production up to 54kg

This all-in-one ice maker redefines commercial and premium ice production with its distinctive crescent-shaped ice cubes. Combining efficient ice-making with elegant design, it is crafted to deliver crystal-clear, slow-melting crescent ice—the perfect choice for refined beverages. The crescent ice features a unique curved form that fits snugly against the glass, unlike traditional cube ice. This design not only ensures slower melting but also keeps drinks cooler longer without diluting their flavor. The graceful, shimmering arc of the crescent catches the light with a soft glow, making it a visual highlight whether used in classic cocktails, neat whiskey, iced coffee, or creative milk tea. Ideal for bars, specialty coffee shops, modern tea houses, and outdoor weddings.

Features & Plus

- Automatic water intake and low water alarm
- Ice making will automatically stop when the ice is full
- Automatic over-temperature and over-pressure protection
- Open door panels that slide upwards, saving space
- .The compressor is powerful, operates stably, and operates with low noise
- Dust-proof and water-proof design effectively reduces maintenance cycle

Testing Conditions

24h icemaking test conditions:
room temperature 25 C,
water temperature 20 C.
In case of any discrepancy, the actual product shall prevail.

Available ice cube size

- 30x38x13 mm

Key Performance Indicators

- Design Life: 150,000 cycles
- Core Components Life: 5 years
- Annual Failure Rate: ⩽1.5 times (field technical support provided)
- Water Output Error: ±5%
- Ice Discharge Temperature Error: ±3℃

ICE MAKERS

Certifications available for this model

NSF ETL CE CB KC RoHS ISO

BLIZZARD ICE SYSTEMS

FWIC-54C

Built-in Ice Machine

Technical information

Machine dimension	675Wx600Dx750Hmm	Machine Weigh	58kg
Rated power/current	588W	Rated voltage	240V
Rated frequency	50Hz	Inner liner capacity	30kg/66lb
24hour per day capacity	54kg/120lb	Ice grids	30*38*13mm
Refrigerant	R290	Cooled type	Air-cooled

Storage and installation

Storage temperature：5 to 50℃ Storage humidity：10% to 70% Operating ambient temperature：5 to 40℃ ambient humidity：10% to 80%

inlet water pressure：1-5.5Bar Inlet water hardness：0-8°DH Waterproof rating：IPX3

Implementation Standards

GB4706.12005 GB4706.36204 GB4706.34208 Production License Number：（Guangdong）XK01-302-1066
