

Multi-Boiler Double Group Coffee Machine

TVET3-2B — Coffee Only

For coffee brewing and dispensing.

TVETT3-2B — Coffee & Tea

For both coffee and tea service.

TVT3-2B — Tea Only

For tea brewing and dispensing.

The TVET & TVT Series is a professional dual-purpose machine engineered for cafés that want to serve both high-volume espresso and premium tea extracts without adding extra equipment. With independent multi-boiler heating, real-time extraction data, and adjustable temperature & pre-infusion control, it delivers consistent, repeatable coffee quality – even across multiple baristas.

Built for cafés, restaurants, hotels, bakeries, and high-traffic beverage venues, the TVET & TVT Series supports fast service, multi-barista workflow, and menu versatility – coffee and tea, all from one station. The 5-inch screen, flow-replication function, auto water refill, and one-button backwash simplify daily operation while maintaining professional-grade performance.

3-Stage
Temperature Control

12L
Steam Boiler

Dual 1L
Boilers

Cups/Hour
Output

9 BAR
Extraction Pressure

6-Stage
Tea Profile

Dual Copper
Brewing Heads

Independent Boiler & Brew Group Temp. Control

12L copper steam boiler + dual 1L brew boilers + heated copper brew groups.

Pulse Tea Extraction

Custom tea extraction with 6 programmable stages. (TVT3-2B and TVETT3-2B)

Brew Group with Pre-Infusion & Light

Heated brass brew groups maintain stable extraction temperature during back-to-back service.

5.0" Dual-Side Smart Touch Screen

Intuitive control for coffee, tea, scale connectivity, and one-touch operation.

9 BAR Commercial Pump

Professional rotary pump delivers stable 9 BAR pressure for reliable, consistent espresso quality.

PID Temperature Control

Keeps extraction temperature highly stable for balanced, flavour-rich espresso — cup after cup.
