DENOMINATION:

Gas cookers with panoramic oven. GN. 6 burners, high power. 900 range.

DESCRIPTION :

- Stamped surface tops, manufactured in 2 mm thick AISI-304 stainless steel.
- Laser-cut joints, automatic welding and polishes. Screws hidden from view.
- Hobs with dimensions 397 x 350 mm allowing the use of large pans and pots. The shortened distance between the central prongs, 75 mm, allows them to support pans with a very small diameter (8 cm). This also avoids the danger of small containers tipping over.
- The hobs are manufactured in RAAF enamelled cast iron (resistant to acid and alkali products, and to fire and high temperatures).
- Double crown burners and diffusers in nickel-plated cast iron, guaranteeing the even distribution of heat from the flame in the bottom of the pans, even large ones. This avoids the accumulation of heat at a single point and optimises the energy transfer of the product.
- Burners slot back in with no way of confusing their position.
- Low consumption pilots and thermocouples positioned within the body of the burner for greater protection.
- Gas conduction in flexible stainless steel tubes, making internal manipulation easier and facilitating any repair work.
- Controls set on a protective base with a system against water infiltration.
- High temperature enamelled cast iron flue protector aligned with the hobs, facilitating manoeuvrability and supporting larger containers, increasing useful surface area.
- Access to the components from the front.
- Machines with IPX5 grade water protection"
- Oven dimensions: 1,000 x 700 x 290 mm.
- User-friendly, with controls set on the upper panel for better ergonomics.
- Cooking chamber made entirely from stainless steel, making it easier to clean and ensuring a better level of hygiene.
- Tray inserted sideways, making it more user-friendly.
- Guide rails at three levels which offers different usage options.
- Guides rails with "U" shape to prevent the racks from tipping.
- Temperature controlled by thermostatic valve (125 – 310 °C)

DIMENSIONS

X Width	1200 mm	X Gross width	1240 mm
Y Depth	930 mm	Y Gross depth	1022 mm
Z Height	850 mm	Z Gross height	1255 mm
