It really cooks

Mediterranean flavour

Mycook is the only food processor on the market with induction technology, entirely developed and manufactured by Taurus Group in Spain (EU).

The only one with "SAUTÉ" function, that combines a slow speed and ideal temperature, and extract from food its full flavour, typical from the mediterranean cuisine.

A robust kitchen robot, versatile and easy to use and handle, it is a must-have in every kitchen. It is the all-in-one tool that makes other equipment useless. You can prepare: sauces, soups, creams, aromatized dressings, pastry dough, chocolate tempering, etc.

With high performance set-up and powerful enough for the intensive professional kitchen use, it brings speed in processes including cooking, energy savings and security features.

MULTIPURPOSE WITH ENDLESS POSSIBILITIES FOR PROFESSIONALS IN ANY SECTOR

High gastronomic cuisine, top chef, catering company, hotels, little restaurants, bakeries, ready-to-eat manufacturer, bars and pubs.

Leader Chef Unilever Food Solutions

THE BEST INVESTMENT TO REDUCE YOUR COSTS

Mycook delivers significant savings in time and reduces the associated costs in many daily processes.

IT IS AN ESSENTIAL TOOL FOR BAKERY AND PASTRY

Mycook is used for glazing, mixing, homogenizing, and specially for chocolate tempering..

The Textures CREAMS, SAUCE, TARTARE, VINAGRETTE, OILS, PURES, MOUSSES, GLACÉ, DOUGHS...

SPECIAL SAUTÉ FUNCTION, gradually chops the food at low speed, so you will get the real taste of vegetables and food like the mediterranean style.

SPECIAL KNEAD FUNCTION, you will be able to knead all types of doughs, for bakery and specially for pizza, very simply and quick.

Induction technology

Mycook includes in its base an induction plate that allows heating on the jar thanks to the electromagnetism principle. The heat is uniformly spreaded on the low part of the jar, and combined with induction, cooking is much faster and efficient.

Special jar

Mycook uses a triple layer jar combining stainless steel and aluminium specially designed for induction heating. The lid has an hole for progressively adding ingredients, measuring cup and special stainless steel blades.

All parts are easy to clean and it features security systems for a safe using.
