ROWZER PLUS

FROZEN FOOD PROCESSOR WITH BRUSHLESS MOTOR

New!

Faster, more powerful and silent

"It was never so easy to make such velvety ice creams right when they are ordered, just in time."

NO NEED TO DEFROST FROZEN ICE

Rowzer Plus only processes the desired selectable doses that the user needs, from 1 to 10, without defrosting the remaining, thus preserving all their initial properties.

To do this, we will freeze up to 800g of product in the 1L capacity containers supplied with the appliance, frozen at a temperature of -22 °C (- 7.6 °F) for 24 hours.

NO LEFT-OVERS AND AN EASY PAY-BACK INVESTMENT

As you process at -22°C iced food, you keep your value stored and frozen with no waste.
